College of Business

business.usi.edu

Mohammed Khayum, Ph.D., Dean

Brian McGuire, Ph.D., C.P.A., C.M.A., C.B.M., C.I.T.P., Associate Dean

Tim Schibik, Ph.D., Assistant Dean

Ernest Hall, Ph.D., MBA Director

Abbas Foroughi, Ph.D., Chair, Department of Management and Information Sciences

Mark McKnight Ph.D., Chair, Department of Accounting and Finance

Sudesh Mujumdar, Ph.D., Chair, Department of Economics and Marketing

The College of Business offers bachelor degree programs in the following business majors: accounting and professional services, business administration, business education, computer information systems, finance, management, and marketing. The business education teacher certification program is offered in cooperation with the Department of Teacher Education for students who desire to teach secondary school business subjects. Majors in computer science and economics are not business programs but are administered by the College of Business, which confers these baccalaureate degrees. A concentration in Language and International Trade combines a language major in French Studies, German Studies, or Spanish Studies with the Business Core and an internship in an international business or organization is required.

The College of Business also offers an Associate of Science degree in business and minors in accounting, business administration, computer information systems, computer science, economics, entrepreneurship, finance, human resource management, management, marketing, and web development for enterprise. The business administration minor is restricted to non-business majors. Business and other minors may take minor

Nursing Major, B.S.N.

Nursing as an art and science is based on scientific, aesthetic, and ethical knowledge. The professional nurse diagnoses and treats human responses to illness, helps restore wellness, promotes health, and brings comfort to the dying patient. Caring, commitment, critical thinking, and practice competence are characteristics of the USI nurse.

Graduates of the USI nursing program are employed in hospitals, long-term care facilities, schools, clinics, research facilities, and numerous other community settings. Clinical specialty areas include medical, surgical, maternal-child, geriatric, and psychiatric nursing. Additional education and experience provide career opportunities in teaching, research, management, and independent practice.

The undergraduate nursing program is designed to prepare the professional nurse as a generalist to plan, implement, and evaluate healthcare for individuals, families, and groups in institutional and community settings.

Completion of the undergraduate program provides the foundation for professional practice and graduate study in nursing. Students completing and meeting the requirements for graduation from the nursing program will be eligible to sit for the registered nurse licensure exam.

In addition to classroom instruction and simulated learning activities, clinical learning occurs in local hospitals.
